## GREETINGS

We have the pleasure of again offering our Gladiolus bulbs to you, and you can only hope that the disappointments that we have experienced in our 21 years of growing Glads may be used to your advantage.

We try to grow only the better of the old and the best of the new, and if the variety that you are interested in is not listed, either write us or look around for a cause of it not being listed as there must be something wrong someplace. We have a test plot of several acres that we try to grow all the new ones that comes out and many more of them are discarded than are listed for one reason or another.

If you will follow the key chart that we started several years ago you will be able to get as accurate a description of the Glads performance as we can give you, as we change the ratings each year as we check everything as it grows.

We are giving a complete chart to each variety that we feel the traits are more or less permanently set in. However, some of the newer ones we have not grown long enough to be accurate on, and even a few of the older varieties change from season to season.

We have had a fine growing season and have a fine crop of bulbs, and can only hope for our share of your business again this year. Our bulbs are all planted by hand, dug by hand, cleaned by hand, and graded by hand to insure you getting just as nice a bulb as can be produced. No more bruising than is necessary. Every bulb is removed that does not look just right, etc., all by hand, so that you receive only A-1 bulbs. Ask any of our customers, they can tell you.

## PLEASE READ CAREFULLY

The letter first following the variety such as (K) and (Pf) etc. is abbreviation for the originator of that variety such as (K) Kundred, (Pf) Pfitzer, etc.

Everything we sell is fully guaranteed in every respect, and any error or omission will be promptly and liberally adjusted, if reported. You are at liberty to return any shipment if it does not fully meet your expectations, and purchase price, plus return charges, will be promptly refunded.

Safe delivery of all orders is guaranteed. This includes damages by freezing, so you need not hesitate to order in fall or winter. We will not forward shipments by mail unless weather is such that we feel they can go through to destination safely.

### SECOND CHOICE, PLEASE

Sooner or later, some kinds and sizes of Glad bulbs will be sold out. Saves a lot of time and correspondence if you will kindly name a few varieties that we may send in case sold out of any on your order. Or at least mark your order sheet if we may send another size.

### TERMS

Terms are cash with order except that, if desired, a deposit of 25% will hold order until March 1st, when it will be sent C.O.D. for any amount remaining unpaid at that time.

Charges will be prepaid on all shipments taken from General List to points in the United States. All wholesale orders F.O.B. Monroe.

### DISCOUNT

#### On Orders Taken from Retail Lists

Will allow cash discount of 5% on orders of \$5.00 to \$10.00; 10% on orders of \$10.00 to \$25.00, and will give extras on all orders, so that our customers will all secure additional discount in the way of extra bulbs.

### SPECIAL NOTICE

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any item of less than ten cents and very little at that price.

In the event that we are out of one size in a variety, we will substitute the next size in sufficient quantity to cover price, unless otherwise instructed. Just note on your order, "Don't Substitute," if you want sizes ordered only. We never substitute on varieties unless permitted to. Our aim is to please our customers.

### EARLY ORDERS

Early orders are entirely practical and sensible. They insure your receiving the varieties and sizes you want, and they also secure for you the "pick of the crop," and they help us, by relieving our storage space. Many good Glads will be in great demand and hard to find later in the season.

While we like to ship in the fall, we will be glad to hold your order for later shipment if desired.

Please note carefully whether variety is priced "each" or "per 10" or "100".

Five may be ordered at the ten rate. Twenty-five at the 100 rate.

All stock offered and orders accepted subject to prior sale.

No order accepted for less than \$1.00.

**WE ARE MEMBERS OF THE MICH. GROWERS ASSOCIATION.** Thus assuring you of certified, young, firm and clean stock.

### TO LARGE BUYERS

Growers, dealers, etc., who can use large quantities of a variety or a good big order of different varieties of bulbs or bulblets please mail in to us the quantity and kinds you want, and we will quote you on the whole or at least what we can furnish. Chances are we can save you money. **THIS IS FOR LARGE LOTS SO PLEASE DO NOT SEND IN LISTS OF A FEW BULBS FOR SPECIAL QUOTATIONS.**

## NEW INTRODUCTIONS 1940

Having known and watched the hybridizing of one of America's oldest Glad Growers (Mr. Louis Jaenichen, now over 70) for 10 years or more and wondering why he has never introduced any of his seedlings, some of which put to shame many of these which have been placed on the market, have been informed that he has played with Glads just for his own enjoyment. Year after year his seedlings have won ribbons at the local and state shows. This year we have persuaded him to allow us to place on the market two of his seedlings, which, we are sure will not only please you but be able to hold their heads up wherever Glads are grown. Owing to a fair stock of both, prices will be very reasonable.

### DICTATOR (Jaenichen) 1940

New very deep pink lavender, color by Ridgeway Mallow Purple might be classed a new color in Glads. Clean, clear color with large redish purplish tongue in throat. Medium tall grower with 5-8 medium sized plain pettled florets, open always in perfect placement. A Glad that is hard to forget. Mid-season bloomer.

### FIRE BALL (Jaenichen) 1940

Very large spectrum red self, slightly ruffled tall spike with 6-7 wide open florets open at a time on a spike carrying 18 buds. A Glad shown for the first time this past season and made all other reds look sick. Fine for show as well as a good commercial. Always straight. Prolific and a good producer.

Trial ground reports on both the above this past season place both on a high standard.

Prices on either of the above: Large 50c each, 10 \$4.00; Medium 35c each, 10 \$2.60; Small 25c each, 10 \$2.00.

## 1939 INTRODUCTION

### PHEASANT DOR'E (Golden Pheasant)

#### Seedling of Downey (Can)

Pheasant Dor'e is a pure self color commercial yellow. Has no markings, not even in the throat. Tall late bloomer with up to eleven medium sized blooms open at a time on a tall, not heavy but not wirey stem. Foliage clean, healthy and of good color and low allowing for a good cut of the flower stem. Color a clear deep yellow that does not fade after being cut, and a perfect keeper in the florists ice boxes. Floret placing the spacing perfect. L-1-25c, 10-\$2.00; M-1-15c, 10-\$1.00; S-10-50c)

## 1935 INTRODUCTIONS

### THE DRY WEATHER TWINS

Our first introductions that have made names for themselves and are grown wherever good Glads are grown. Due to lowered prices this season we cannot promise to be able to hold stocks complete and would advise early orders if wanted to insure you getting them.

Bit O' Heaven (Crow)—Clear vivid orange with yellow eye. Tall straight grower with up to ten medium sized florets open at a time. Early prolific and a good keeper. (Large 10-80c; Medium 10-40c; Small 10-20c)

Streak of Butter (Crow)—One of the tallest Glads grown. Have seen them grown almost seven feet tall. Clear clean cut buff, blending to light salmon at the edge with a soft golden throat. Ten to twelve medium sized florets open at a time. Late bloomer always straight and prolific. The later it blooms the better it is. (Large 10-80c; Medium 10-40c; Small 10-20c)

If interested in large quantities, write for wholesale list.

We are always wanting and looking for good pictures of the newer Gladiolus suitable for reproduction and will make the following offer to any of our customers.

We will allow \$2.50 worth of bulbs from our retail catalogue for each picture of any of the newer Glads that we list for sale that we are able to use for reproduction. Use your camera when you have a good exhibition spike and send us the picture. We may be able to use it and it means money to you.

## OUR MAILING LIST

Our mailing list is revised each year, as you well know it is useless for us to send you catalogues each year if you are no longer interested in Glads.

We are not stingy with our catalogues and will send you one if you are only interested and we know it. So there are two ways to let us know if you still want to remain on our mailing list. One is to send us an order, the other is to drop us a line asking for catalogues.

We do not expect an order from every one every year, so if you are still interested and do not receive a catalogue just let us know and we will send one P.D.Q.

### COLLECTION NO. 4

We receive each year many requests for a mixed collection of cut flowers, so here 'tis. Beat it if you can.

100 large sized bulbs sent prepaid for \$3.00, 50 for \$1.75, 25 for \$1.00.

This collection will contain not less than 40 varieties of almost every color in Glads and will contain all the best cut flower varieties known. Price if bought separately would be twice what we ask in this collection but each year we have more of certain kinds than others and will give you the best of the deal in this collection.

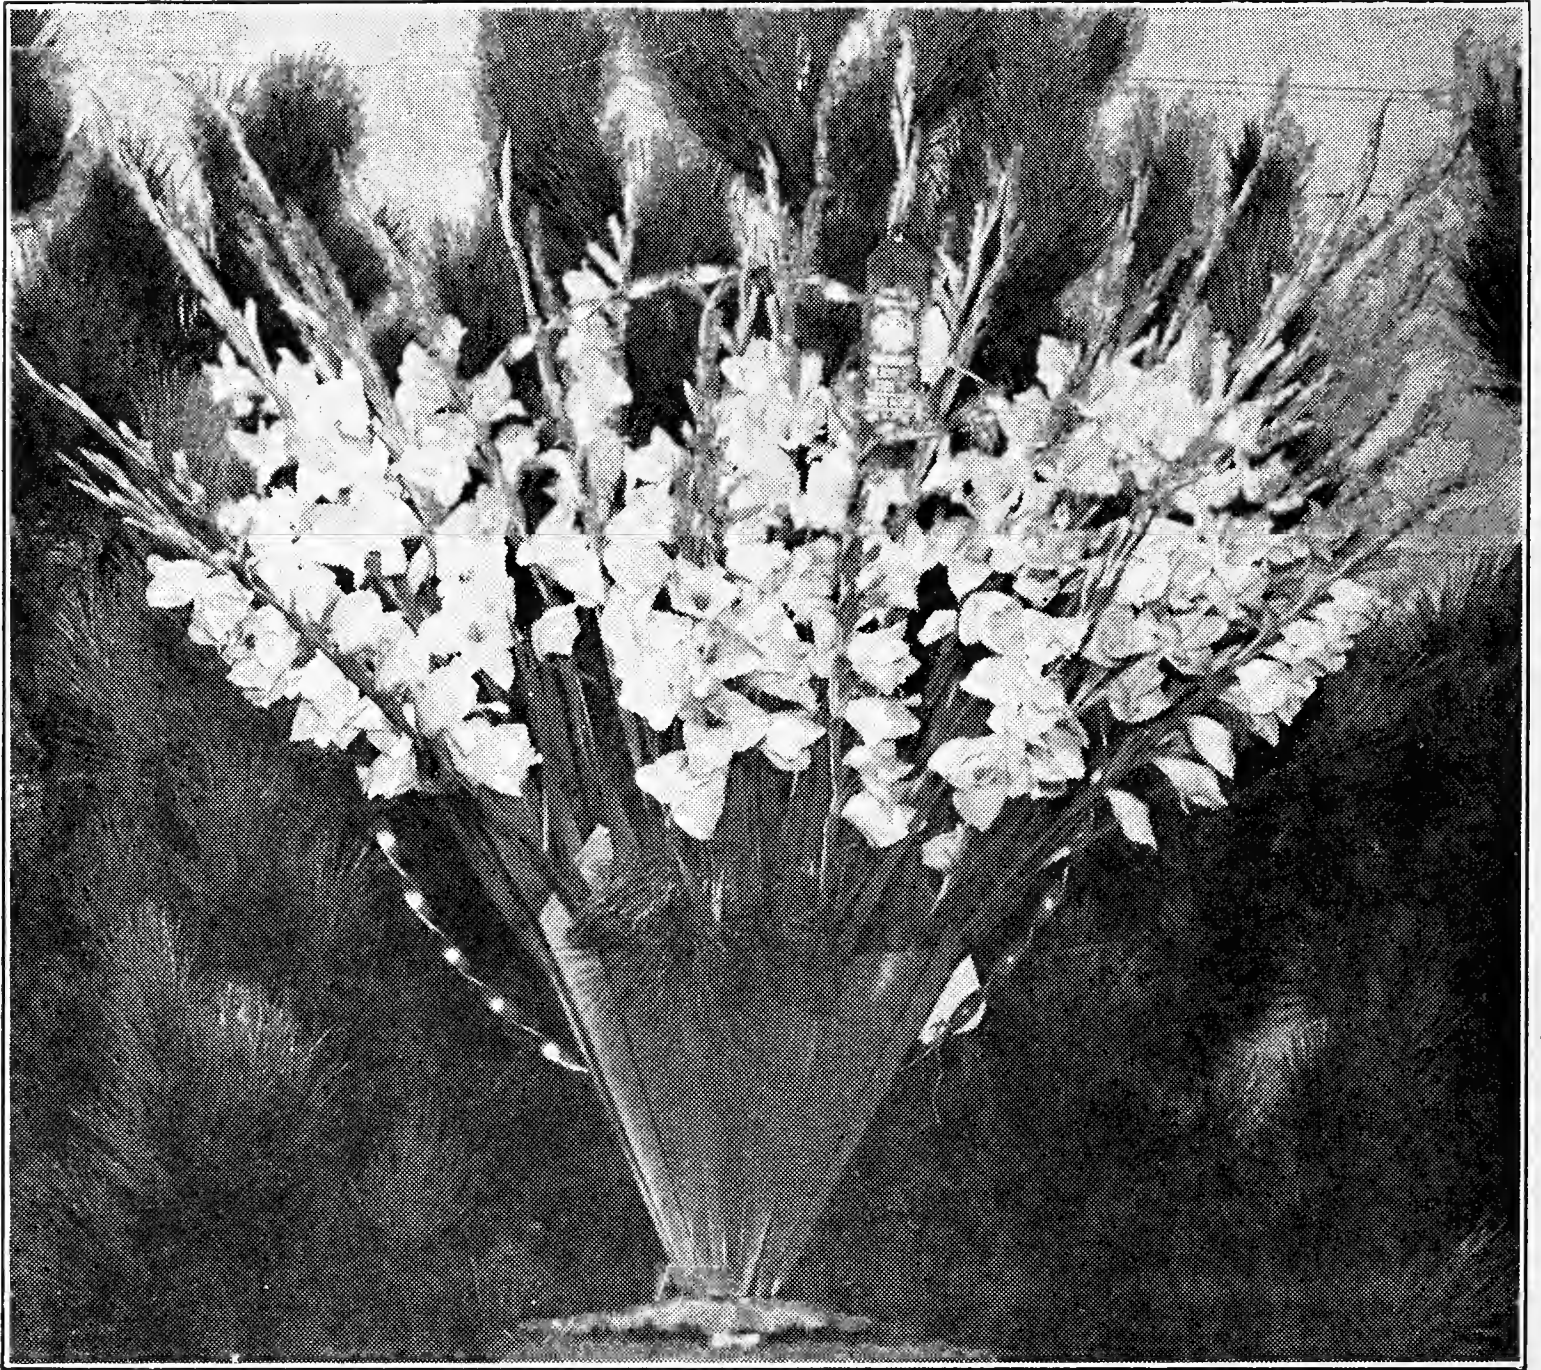

### 50c LONG SEASON ASSORTMENT

Each 50c assortment is only one variety and not several or all. Each assortment consists of various sizes of just one variety. Cannot say just how many of a variety we will send as varieties vary in price and we have larger stock of some than of others but leave it to us we will send good measure.
